

By going the Extra Smile!

We're excited to announce that our Newmarket Recreation's 2010 Winter & Spring Activities Brochure is "Action Packed" and full of fun and exciting programs for you and your family! Not only are we adding new programs like pickle ball & Zumba Gold, but we will continue to provide our regular and affordable programs that you have grown accustomed to. We hope you'll take the time to peruse this brochure and sign you or a family member up for one of our many programs or classes.

Be it with fast and friendly service, knowledgeable advice, or a listening ear, the staff at the Newmarket Recreation Department feel that the families of Newmarket expect and deserve a place that meets the needs of a small town and close knit community. We will strive to get to know you and your family in order to better serve you in any way we can. The Newmarket Recreation Department has always been your destination for all types of exciting activities, special trips, and seasonal fun but we now wish to expand our role in the community. We feel we are not just a business or a community center, but an extension of the small town ethic, trying to provide you with friendly and accommodating service. We are your home away from home, a true center for the town of Newmarket!

In providing a recreation outlet to our customers, our goal here at Newmarket Recreation is to offer a variety of introductory courses that allow all individuals the opportunity to be exposed to new leisure experiences. In doing this, we strive to create an inclusive recreational culture that works for all members of the community, regardless of differences or background. We hope you'll catch the wave and "wanna iguana" often at Newmarket Recreation by participating in several activities that we offer in our 2010 Winter Spring Brochure. Registration for all programs can be made in person at the Community Center.

Yours in Recreation,

Jim Hilton - Recreation Director
Aimee Gigandet - Asst. Recreation Director
Anneliese Fisher - Operations Manager
